

First Aid Procedures at Chivenor J&I School

The **First Aid procedure** at Chivenor J&I School is in operation to ensure that every child, member of staff and visitors will be well looked after in the event of an accident, no matter how minor or major.

It is emphasised that the *team* consists of **qualified First Aiders** and **not** trained doctors or nurses.

In the event of an accident all members of the school community should be aware of the support available and the procedures available to activate this.

The purpose of the Policy is therefore:

- To provide effective, safe First Aid cover for children, staff and visitors.
- To ensure that all staff and children are aware of the system in place.
- To provide awareness of Health & Safety issues within school and on school trips, to prevent, where possible, potential dangers or accidents.

NB: The term FIRST AIDER refers to those members of the school community who are in possession of a valid First Aid at work certificate or equivalent.

FIRST AIDERS will:

- Ensure that their qualification is always up to date.
- Ensure that first aid cover is available throughout the working hours of the school week.
- Always attend a casualty when requested to do so and treat the casualty to the best of their ability in the safest way possible. This includes wearing gloves where any loss of blood or body fluid is evident, calling for help from other First Aiders or Emergency Services.
- Help fellow First Aiders at an incident and provide support during the aftermath.
- Act as a person who can be relied upon to help when the need arises.
- Ensure that all first aid kits are adequately stocked and always to hand.
- Insist that **any** casualty who has sustained a significant head injury is seen by professionals at the hospital, either by sending them directly to hospital or by asking parents to pick up a child to take them to hospital; ensure that parents are aware of **all** head injuries promptly.
- Ensure that a child who is sent to hospital by ambulance is either:
 - Accompanied in the ambulance at the request of paramedics.
 - Followed to a hospital by a member of staff to act in loco parentis if a relative cannot be contacted.
 - Met at hospital by a relative.

- The First Aider need not be the member of staff to accompany the casualty to hospital, however, an appropriate person should be sent.
- Liaison **must** occur with the Headteacher, to ensure that lessons are covered in the event of an absent teacher.
- Keep a record of each student attended to, the nature of the injury and any treatment given, in the accident book. More serious accidents will require a Birmingham City Council Accident Report Form to be completed and sent to the LA. These are stored in the school office.
- Ensure that everything is cleared away, using gloves, and every dressing etc. be put in a yellow bag for contaminated/used items and sealed tightly before disposing of the bag in a bin. Any bloodstains on the ground must be washed away thoroughly. No contaminated or used items should be left lying around.

THE GOVERNING BODY WILL:

- Provide adequate First Aid cover as outlined in the Health & Safety [First Aid] Regulations 1981.
- Monitor and respond to all matters relating to the health and safety of all persons on school premises.
- Ensure all new staff are made aware of First Aid procedures in school.

THE HEADTEACHER WILL:

- Ensure that they always obtain the history relating to a child not feeling well, particularly in the cases of headaches, to ensure that no injury has caused the student to feel unwell.
- Ensure that in the event that an injury has caused a problem, the child **must** be referred to a First Aider for examination.
- Support the Learning Mentor at the start of each academic year, in providing an up-to-date list of children who are known to be asthmatic, anaphylactic, diabetic, epileptic or have any other serious illness is provided for all staff.
- Have a file of up to date medical consent forms for every student in each year and ensure that these are readily available for staff responsible for school trips/outings.

TEACHERS will:

- Familiarise themselves with the first aid procedures in operation and ensure that they know who the current First Aiders are.
- Be aware of specific medical details of individual students where appropriate
- Ensure that children are aware of the procedures in operation.
- Never move a casualty until they have been assessed by a qualified First Aider unless the casualty is in immediate danger.

- Send for help to the office as soon as possible by using the red card, a person or telephone, ensuring that the messenger knows the precise location of the casualty. Where possible, confirmation that the message has been received must be obtained.
- Reassure, but never treat, a casualty unless staff are in possession of a valid First Aid qualification or know the correct procedures; such staff can obviously start emergency aid until a First Aider arrives at the scene or instigate simple airway measures if clearly needed.
- Send a child who has minor injuries to Reception if they are able to walk where a First Aider will see them; this child should be accompanied.
- Send a child who feels generally 'unwell' to their class teacher and not to a First Aider, unless their deterioration seems uncharacteristic and is causing concern.
- Ensure that they have a current medical consent form for every student that they take out on a school trip which indicates any specific conditions or medications of which they should be aware.
- Have regard to personal safety.

OFFICE STAFF WILL:

- Call for a qualified First Aider, unless they are one themselves, to treat any injured child. This should be done by telephone or person, giving the specific location of the casualty.
- Support the First Aiders in calling for an ambulance or contacting relatives in an emergency
- Send children who simply do not feel well to their class teacher.
- **NOT** administer paracetamol or other medications

THE EXECUTION OF THIS POLICY will be monitored by both the FIRST AID TEAM and GOVERNORS
